Mr. Smathers,

This email is in regards to our follow-up to our phone conversation on April 19, 2012. During the phone call, you changed the scope of your FOIA request #2012-OCIO-02126-F to the following:

“copies of all emails in the Office of the Secretary of the USDA, and in the Office of the Food Safety and Inspection Service of USDA, that contain the term "pink slime”

This new scope is the same one used for a FOIA request that was recently processed. If you would like to use this new scope then the material that was released to the requester of this request will be sent to you as well. You stated in the phone conversation that you would like the material to be emailed to you. If we are unable to send you the material in this manner, then the material will be placed on a compact disc and mailed to you. I will contact you with and request a mailing address, should we need to mail the material to you.

In order to continue processing this request, you must reply back to this email and state that you agree to these terms. If you have any questions please contact me.
